LOCAL MATTERS.

CONDITION OF THE CITY JAIL.—The commissioners appointed by the Judge of the Hurtings Court in pursuance of the law in such cases made and provided for the purpose of examining the condition of the jail of the city of Richmond returned their report to the Court on yesterday, and is as follows as to the past three months:

To the Hop. G. L. Christian, Judge of the

follows as to the past three months:

To the Hon. G. L. Christian, Judge of the Hustings Court of Richmond, Va.:

The undersigned, commissioners appointed to inspect the jail of the city of Richmond, have the honor to make the following report: The size of the jail and the number of its apartments having been given in former reports make it unnecessary to repeat it again. The jail is well secured and amply sufficient for those who are at present confined therein and for any increased number which may reasonably be anticipated, the convicts and those who are not convicts being separated. The apartments can be, and are, so far as we could ascertain, kept comfortable, and the jail is, on the whole, in good repair, with the exception of a few repairs to which reference will be made.

The jail has been whitewashed, as re-

The jail has been whitewashed, as required, and is suitably aired and clean. The food of the prisoners is wholesome and sufficient, and the appearance of the inmates indicates health and good treat-ment. The beds and bedding were suffiment. The beds and bedding were sufficient, and the apartments are warmed so as to be rendered comfortable. Adequate nursing and medical attendance and medicines are in cases of sickness provided, and in no case, unless directed by the physician, is the use of ardent spirits allowed. So far as we could hear, the jailer has faithfully performed his duties.

While, upon the whole, the condition of the lail is good, we recommend the purchase of a few articles of furniture and some slight repairs which are necessary for the convenience of the officers of the insti-

some slight repairs which are necessary for the convenience of the officers of the insti-tution and for the comfort of the prisoners. Dispensary.— This room is almost desti-tute of furniture, and we recommend that two chairs and a desk be provided for the use of the physician and attendants. Cells.—No. 3 requires a few panes of glass, and also Nos. 4 and 5. The yard of the colored cells requires a little pave-ment.

Cooking Department .- The oven is out of order, and requires a new crown or arch, and general repairing. In other re-spects the apartment is in excellent condi-tion, the tins being clean and the room

well swept.

The front yard is in good condition, but requires paying for a few feet where the gas-pipe was replaced. A new cap near the entrance to the dungeon should be supplied, as the present one is insufficient.
Your commissioners were gratified to
find the health of the jail exceptionally
good, and that there was literally no case

of acute or chronic disease in the institution. All had been vaccinated, and thus protected from the scourge which infects the country. We also state, as a gratifying fact, that of 111 inmates, the sum total of the prisoners, and in a population of about 70,000, there were but one white female, 18 white males, and the remainder, 92 in number, colored.

All of which is respectfully submitted. ROBERT G. CABELL, M. D.; P. W. GRUBBS, F. STEARNS.

Wholesome Advice.

will permit me to say a few words with the hope of allaying the excitement existing in regard to the spread of small-pox. This is of importance, even in a business point of view. It has been my lot to see my full share of all the cases that have occurred in this city for the past thirty years.

In the first place, I have perfect confidence in vaccination properly performed with good virus—that is, with virus you know of your own knowledge to be good. As I stated in the Dispatch some three months ago, a doctor cannot be certain that matter sent him from the North or South Editors Dispatch: I have to ask that you will permit me to say a few words with the hope of allaying the excitement existing in

matter sent him from the North or South either is good, I care not whether it be bovine matter or the crust from a child. He should cultivate the matter himself or get it from some medical friend upon whom he can rely. If the matter is good and the operation well done (and any doctor can do it well) there is no more danger of a man thus vaccinated having small-pox than there is of

vaccinated having small-pox than there is of his having measles or small-pox twice—not much more danger than that he will be struck by lightning.

Secondly. Every one should be vaccinated certainly twice if not oftener; certainly as long as in the opinion of a doctor it "takes," for the public do not know what the work "take" implies. Vaccination requires some knowledge, and I have before twices. requires some knowledge, and I have seen whole families ruined by trusting to their own vaccinations. The matter may not be

certainly can protect people who avoid ex-posure. The doctor knows that proper vaccination will protect him and his family, and he does not neglect it. The idea that he has some secret protection is too absurd

for more than mention. The late Dr. Albert Snead, who saw more of the disease than any man in this city of his day, had the most absolute confidence in vaccinable. Street was the char-house, also covering a block, and ten stories in height. The two

tion. He had charge of the small-pox hos-pital for many years.

If we reflect upon the character of the people who have had small-pox here it will be seen how small is the number of those properly vaccinated. Of 72 cases reported house. The flames flashed across the street by Dr. Cabell last week at the hospital only and fastened upon the window-sashes of were white. It is true that the disease seems always partial to the negro, but not to this extent. At one time it was 20 to 1 at the hospital. I am satisfied if vaccina-tion was thorough the disease could be stopped in thirty or sixty days, provided ing.
all strangers coming here to reside or to Mr. Havemeyer says the loss on building all strangers coming here to reside or to remain one or two weeks were required to register and be vaccinated, if needed. The vaccinators appointed by the city never did the work thoroughly, as I know of my own knowledge. They more than carned the pittance allowed them. The person vaccinated should be always seen by the doctor six to ten days after the operation. This in some cases may require two or three visits, which these vaccinators had not the time to make. I hope the new law will be carried out to the letter, and that parties sent around to make investigation of the vaccinated will do the work thoroughly; and if they find the disease breaking out af-

But, Mesars. Editors, I fear my "few words" will become many words, and I must conclude by advising all nervous people to put themselves under the care of their doctor and hold him responsible for their protection from small-pox and varioloid. This is not said in jest, but in real carnest. Any doctor could make a fortune by gaaranteeing for a \$5 fee (with a forfeit of \$1,000) that his patient shall uelther have small-pox or varioloid.

TRUSTEE'S SALE OF VALUABLE
TRUCK FARM IN THE COUNTY OF HANOVER, NEAR THE CITY OF RICHMOND,
AND ALSO HORSE, MULE, TWO COWS, ONE
FINE BULL, FARMING IMPLEMENTS, AND
HOUSEHOLD AND KITCHEN FURNITURE.
By virtue of a trust deed excented by R. P. Pollard
on the 1st day of March, 1877, and of record in
the clerk's office of the County Count of Hanover,
Deed-Book 2, page 559, ishall offer for sale at
public auction, on the premises, at 12 M. on
WEDNESDAY, JANUARY 11, 1882,
that VALUABLE TRUCK FARM, containing
127%, ACRES (not including the grave-yard),
called "PLEASANT LEVEL," the residence of
the late R. P. Pollard, situate immediately on the
county road leading from Mechanicsville turuple
to Oid Church, and within six miles of the eity of
Richmond.

This form is situated in the famous trucking region of Hunover county, and has been highly improved; indeed, in fertility is equal to any in the
county. Has on it a good dwelling-house and other
buildings. There is now seeded on it about twentytwo bushels of wheat, and three quarters of an acre
set in onlous.
